- Genetics in dental medicine

B. Presence seminars according to schedules on department webpage (patfyz.medic.upjs.sk)

1. **T:** Physical factors as causes of diseases
 - Pathological effects of mechanical energy
 - Hyperbaria/hypobaria; hyperthermia/hypothermia
 - Effects of electromagnetic field; effects of ionizing radiation
2. **S:** Chemical factors as causes of diseases
 - Environmental intoxications (heavy metals, CO,....)
 - Effects of smoking and alcohol abuse, changes in oral cavity
3. Examination of knowledge (quiz, oral examination)
4. Presentations of the selected topics according to the group schedules

Seminars (S) = special topics for discussion; **Tutorials & homeworks & exams (T)** = discussions, consultations, oral and quiz exams on the current topics.

Note: The range of topics and their time-table during the tutorials and seminars in each group is determined by the teacher and to a large extent, by the presentations, consultation interests, questions and readiness of the group and may vary in between groups. Neither tutorials nor seminars are lectures, but dialogue and discussion and thus require an active participation and preparation of students for the topics.
